Barrel cleaners BRA

Handheld unit, which cleans the inside of the barrel and siphons off the dirty water at the same time. The built-in high-pressure injector system creates a very strong vacuum which sucks the barrel empty during and after the cleaning process.

Highlights

- Integrated suction system for dirty water
- Effective 360° interior cleaning
- HD models with patented water hydraulic motor
- Suitable for all barrels with bunghole size >37 mm (1.45”)
- No need to turn and drain the barrel
- Cleaning with any commercially-available high pressure cleaner
- All parts with wash water contact made of stainless steel

Improvements 2015

- New barrel support, adjustable and lockable
- Integrated sight glass
- New motor design for BRA Standard and BRA Flex
- EU or US power plug
